FULL SATISFACTION.

No harm to the flower upon the earth grows so tall, as in times dark, the flower grows so tall.

THE BEST LOVE.

Home love is the best love. The love that you are born to is the sweetest you will ever have on earth.

It is right that the heart should come when you are young, that you should be a wife and a mother, and that you should be a mother and a wife.

Where the heart is true, the love is true. Where the heart is true, the love is true.

Far out of sight, while sorrow still enfold us, the fair country where our hearts abide.

THE GIFT OF GOD.

There would be fewer young fools if there were more wisdom.

Low at the river, only faith can climb high enough to see beyond it.

None but Heaven and the poor know what they do for each other.

Happiness is a perfume that one cannot shed without a few drops falling on one's self.

Two things are embarrassing: to be silent when we ought to speak, and to speak when we ought to be silent.

They who respect themselves will be honored, but they who do not care about their own respect will be utterly derided.

As long as love prevails in a house, peace of the household is a satisfactory. As it is a disgrace, duty is a disgrace.

Only those who have had experience in the world can be wise. Only those who have had experience in the world can be wise.

Electoral and Parliamentary Corruption.

One of the strongest accusations made by the Grit party in opposition, and one which they never seemed tired of repeating, was that the Conservative party had debauched the electorate by bribery and other corrupt practices, by which means alone they were able to retain power. At the same time they took occasion to attack their party to the skies. This was in the good old days when such assertions were not easy to controvert, as the law was in such a state that it was comparatively difficult to establish charges of the nature named, hence controverted election cases were few, and hence, also, there was no authentic way of determining the character of the self-education of the Grit party and the same time Mr. James Norris, member for Lincoln, who appears in the above list as having been unelected for corrupting the electors, was given employment for his services at remuneration of a considerable sum. The passage by Sir John Macdonald's Government of a more stringent election law, by which the trial of controverted election petitions was referred to the Judges, if the law has shown any unfounded were the charges of the Reformers and how entirely pharisaical and hypocritical were their assertions of their own purity. The effect of this exposure has been to bring forward the subject, as heard from the self-styled "party of purity," but few of whose prominent members have escaped the exposure of the fact that their own corruption was infinitely greater than that of those whom they had so long and so strongly condemned.

At the present Parliament is now near the close of its constitutional existence, a review of the facts, as concisely as may be, will not be out of place at this time, as the statement forms an important part of the record. Previously to entering upon the necessary details, however, it may be as well to remind the reader that when the general election of 1874 took place, the Government was very strongly on the side of the Reform party—more so than it is likely ever to again. The people had been led astray to such an extent by the "Pacific Scandal," that there was no necessity of supporters, and consequently then, if at any time, should they, had they been honest in asserting their party, they would have been legitimate means to secure their triumph at the polls. The Conservatives, on the contrary, felt that they were in the depths of unpopularity, and it may fairly be assumed that under such circumstances it is at any time—would they have resorted to the use of money to stem the current of popular feeling, which unceasing clamor had caused to run so powerfully against them. Being thus seized of the most important facts of the case, we may now see how Grit "purity" made itself manifest, as exhibited upon sworn testimony taken from before the courts. The Grit members of Parliament insisted for corrupt practices in their elections to the present Parliament were as under:

—Addington—Schuyler Shiller.
—Argenteuil—Lemuel Cushing, jr., disqualified.
—Chamby—Annabé Jodoin, jr., unelected twice and disqualified.
—Charlevoix—Pierre A. Tremblay.
—Cornwall—A. F. Macdonald.
—Essex—Wm. McGregor.
—Glengary—Archibald McNab.
—Huron, South—Malcolm Colin Cameron.
—Lincoln—James Norris.
—London—John Walker, unelected and disqualified.
—Montreal Centre—Bernard Devlin.
—Montreal West—Frederick Mackenzie, twice unelected.
—Norfolk South—John Stuart.
—Northumberland East—James L. Biggar.
—Northumberland West—William Kerr.
—Renfrew North—William Murray.
—Renfrew South—John L. McDougall, twice.

—Richmond and Wolfe—Henry Aylmer.
—Simcoe North—Herman H. Cook.
—Toronto Centre—Robert Wilkes.
—Toronto East—John A. Macdonald.
—Two Mountains—Wilfred Trevelyan.
—Victoria North—James Macmillan, twice.
—Wellington North—Nathaniel Higinbotham.
—York North—Alfred H. Dymond.

Thus we see that twenty-two members of the "party of purity," when their professions were put to the test, were found to have practised that which they had decried the people for practising by asserting when, to a familiar figure, they were no longer allowed to measure their grain by their own standard, and three of them were disqualified for personally bribing and being party to wholesale bribery and corruption. In addition, Mr. Macmillan, another member of this spotless party, who was successfully elected in Dorchester, Quebec, and then, in the previous election, was found to have been guilty of the return of his opponent, had his name returned on his most effectual, being himself disqualified for personal corruption. The record therefore shows that one-sixth of the entire number of Grit members returned at the general election of 1874, were unelected for debauching the electorate.

What would have been the result if the return of all the "Reformers" who were elected after a contest been petitioned against, it is impossible to state, but the probability is that one-half of such members would have been returned.

This is a terrible showing, in face of the declarations placed on record by the party concerned. But worse remains behind. Not only were those model purists debarred from the contest, but they were also "elevators of the standard of public morality," but they have also proved themselves personally corrupt and self-seeking.

The Government, however, was not content with securing themselves in their position and in regarding those who had served them faithfully, that favors at the public expense, of which they were literally showered from the doubtful, in order to retain their support, and upon the faithful, as a reward for their services, in direct violation of the law of the land, passed in 1874, which is the law of the land. Some ten or a dozen Grit members were concerned in these transactions. The Speaker, who as first Governor and President of the House of Commons, and as President of the House of Commons, was the popular branch of the Legislature, should of all men be above suspicion, was corrupted and subverted by being given printing to the amount of over \$1000 per annum, which work, being incapable of executing in his own one-horse office, he farmed out to other tradesmen, his only trouble being to sign the receipts and pocket the profits, which were estimated at about \$2000 per annum. These favors were given to Mr. Anglin, in order to propitiate him for his disappointment in not receiving a seat in the Cabinet, which was a greater favor than did Mr. Anglin in his own right. He was given a seat in the House of Commons, and was given employment for his services at remuneration of a considerable sum. The passage by Sir John Macdonald's Government of a more stringent election law, by which the trial of controverted election petitions was referred to the Judges, if the law has shown any unfounded were the charges of the Reformers and how entirely pharisaical and hypocritical were their assertions of their own purity. The effect of this exposure has been to bring forward the subject, as heard from the self-styled "party of purity," but few of whose prominent members have escaped the exposure of the fact that their own corruption was infinitely greater than that of those whom they had so long and so strongly condemned.

Ontario Legislature.

THIRD SESSION—THIRD PARLIAMENT.

February, March 1.
During the morning session, on the motion for the third reading of the Bill giving effect to the Voters' Lists, Mr. Meredith moved in amendment that it be referred back to the Committee for the purpose of striking a clause that the Act should not be enforced this year as regards the lists of 1877. The amendment was lost by a vote of 44 to 37, and the Bill was read a third time.

The Bill respecting Union School Sections was also read a third time. The Bill respecting the Magistrate and the Public Service Bill, passed through Committee and the House adjourned at one p.m., while still continuing in Committee the Bill amending the Revised Statutes.

During the afternoon session, on the motion for the third reading of the Bill respecting the Magistrate, Mr. Cameron moved in amendment that it be referred back to Committee for the purpose of striking out the clause that the Act should not be enforced this year as regards the lists of 1877. The amendment was lost by a vote of 44 to 37, and the Bill was read a third time.

Mr. Meredith offered another amendment, which was lost by a vote of 46 to 32, after which the motion for the third reading was carried.

The House then went into Committee on the Bill amending the Revised Statutes, read for recess, and resumed. The railway clause of the Bill was debated at great length, and the Attorney-General finally asked the House to pass the clause as it was, and he would see if some modification of it could be framed.

Mr. Meredith moved the addition of a clause conferring the right to vote at school meetings on income franchise voters. The chairman ruled the motion out of order, and the Bill was then referred to the Speaker, who requested time to consider the point before giving his decision.

The House then considered in Committee the Bill to amend the Liquor Act, after which, at 10 p.m., the House adjourned.

Saturday, March 2.
The House met at 11 a.m., and after the third reading of the "London Water-Works Amendment Act of 1876," and the Bill to incorporate the British Museum and Library, Mr. Macmillan moved the Railway Bill resolution. The first resolution relates to the aid to be granted to certain railway companies, as follows:—The Hamilton and West Toronto Railway from Jarvis to Dover—a distance of some ten miles, to receive at the rate of \$173.04 a mile per annum, payable half-yearly for twenty years; the Port Stanley and Port Stanley Railway for a distance of about ten miles, at the rate of \$173.04 a mile per annum, for twenty years; and the North Simcoe Railway, for a distance of \$216.30 a mile per annum, for twenty years.

Neutrality of the Dominion and Local Governments.

"I am in favor," said Mr. Blake in 1871, "of the complete neutrality of the Dominion and Local Governments."
"Ditto," said Mr. Macmillan. Now read the telegram of the Opposition candidate for the Nova Scotia Assembly in Shelburne, represented in the Dominion House by Mr. Cameron, received General—
Statenburg, Feb. 28th, 1878.

Mr. Thomas Coffin handed me a letter of Robert Robertson's offering me what he called the Government of the Dominion of Mines and Geology, stating that the Government would place him in Legislative Council, and that I should be the business to-day in Robert Robertson's presence, who made no denial.

Mr. White rejected Mr. Coffin's letter, and the electors rejected Mr. Coffin's candidature.

Quebec Political Crisis.

LOCAL MINISTRY RESIGNS.

A NEW MINISTRY APPOINTED.

QUEBEC, MARCH 3.—The resignation of the Local Government was placed in the hands of the Local Government last night. The matter was kept perfectly quiet, and no intimation of it has been given officially. The resignation was made by Mr. Joly, this morning at his hotel, to a number of Conservative friends. The only positive information is that the Lieutenant-Governor has sent for Mr. Joly, informed him that he has accepted his Ministers' resignations, and that he will be replaced by Mr. Joly, a minister, a duty which Mr. Joly has accepted. Several names of leading Liberals in the Chamber, and a few moderate Conservatives, are already mentioned in connection with the new government; but no one has been named by Mr. Joly, or will be till to-morrow. It is certain that the names of the new Ministers cannot be known until Tuesday.

The Government's resignation is said to be the result of the refusal to sanction either the new tax bill or the railway bill. The Premier was present at Spencerwood when the Legislature adjourned yesterday afternoon. There is great excitement in the city respecting the political crisis, and all sorts of indefinite rumors have been circulating during the day. The Conservatives are not yet fully adopted, and all the Government friends to vote them, Mr. Joly and his friends will at once go to the country.

PROT MONTREAL.

MONTREAL, MARCH 4.—A dispatch from Quebec says the Ministry have not resigned, but were dismissed in a most brutal manner. A coalition is totally impossible. Mr. Joly has been offered a portfolio, but has neither accepted nor declined. It is believed he will not accept. He is feeling in high circles here that Mr. Joly cannot form a Ministry to satisfy his supporters.

The History of Curling.

Though curling is so eminently a Scotch stone, evidence goes to prove that the game was brought to Scotland from the continent not very long ago—three hundred years or so. Some ultra patriotic curlers claim for it indeed a native origin, or at least one lost in the mists of antiquity since

the "Anglo" in "Osian" to prove that the English heroes beguiled their winters in the game, because in one passage it is said "Swainsdale was the game might"; and that the "Osian" was quite a matter at this notwithstanding, it is quite clear that at the time of the game, we are indebted to outsiders for the first rough sketches of "roaring game." The technical language of the game is a country of its origin, as it is supposed to have been introduced into Scotland by the Flemish emigrants who settled there about the end of the 15th century. No mention of it is made in the "Osian," and it is not probable that it has been well known in 1601, as the "Britannia" published in that year says that in the little island of Copsin, near the Orkneys, "there to be found in great plenty excellent stores for the game of roaring."

[illegible]

well-known passages in Christopher North's "Winter Rhapsody" deplors the falling popularity of curling in his own days: "I can find like many other good thing, curling has got its ups and downs in the world. In some few districts where it once flourished it has almost entirely disappeared. In others it is out - but of later years the establishment of so many clubs has given a new lease of life to the game, and it is again in its season beyond all former experience." The south-western districts of Scotland were long famous for curling, and the players of Lanark and Dumfriesshire were specially renowned for their great skill. It was long the custom for the game to be played in the open air, and in the whole country, and the grand matches of the Royal Caledonian Curling Club witnessed in the early part of the century were from Maidenhead to John O'Grady's, and excite the enthusiasm of branch clubs south of the Tweed.

—A man named Paquet was recently dismissed from work in one of the Upper Ottawa shanties, and started to walk home. He was out seven days without food, and, reached his farm-house, gorged to such an extent that he died a short time afterwards. He was a resident of Gatineau Point, and leaves a wife and five children.

opening his lecture by reading a portion of a speech delivered by Lord Dufferin on Irish grievances before he became Governor-General, and which he declared contained more treason than anything he should say. Ronna said he had no fear of arrest, for a body guard of picked men would accompany him.

Daily Intelligence.

BELLEVILLE, MONDAY, MARCH 11.

City and Vicinity.

ARRIVED.—The steamship "Glenora" ar-

rived on Sunday. The steamer arrived

at Halifax this morning at 8:30.

BOARD OF EDUCATION.—The Board of

Education will hold a regular meeting in

the Council Chamber to-morrow evening at

the usual hour.

FIRE ALARM.—Something was wrong

with the fire alarm apparatus yesterday

morning, and the alarm given was, in con-

sequence a very inefficient one.

LICKNESS.—The attention of those who

intend to apply for shop and tavern

licenses this year is called to the fact that

application must be made to the Inspector

before April 1st. The official notice

appears in our advertising column.

COUNTY COUNCIL.—The March session

of the County Council will be commenced

at 2 o'clock p.m. to-morrow. Papers

having accounts against the County will

be laid on the table at 10 o'clock. The

meeting at the present session, their bills must

be handed in not later than Tuesday.

OPERA HOUSE.—We again call attention

to the entertainment to be provided by

Mrs. Billy Mauger in the Opera House

to-morrow night. Tickets only 25c, and

seats can be secured at Harrison's without

extra charge.

THE SMALL-POX.—The Kingston News

says: "The small-pox of Alford Island is

spreading. All the children of the island

suffer from it, and 17 others at the present

are suffering with this terrible disease.

Dr. Kennedy, jr., of Bath, is said to have

had a grave for one person who had

died of the disease."

THE RAY.—Open water is now to be

seen in numerous places, and the ice is so

thin that the first vessel which comes

it all out. So early an opening of navigation

as now promises for this season has

not been seen for many years, if ever be-

fore, in this part of Canada.

PROTESTANT.—Yesterday was one of

the finest days of the season, and the op-

portunity for enjoying an afternoon's walk

was taken advantage of by seemingly num-

bers of the residents of the city, who

promenaded the principal streets and

states to points of interest elsewhere in

and about the city.

FIRST OF THE SEASON.—Eleven cases di-

rect of the latest American linen and

cases, and 5 cases of the latest English

clothes at Hyman's opposite Consolidated

Bank.

FAMILY FORT.—At \$2.00 per 100 lb.

as H. Corby & Son's flour and feed. Pro-

portionally low prices.

BARBER STOCK TAKING. James Hennessey

wishes to clear out his stock of goods

of Hennessey, Shaw, Glavin, Fennell,

Wing, Price, Cotton, Stein, Loomis,

Hosier, Groves, Scott, Tomlinson, Tick-

ling, Table Linens, &c. &c. &c. of James

Robertson's Bankers, at whatever

prices they will take, before taking stock.

State the address, Robertson & Emery's

old stand, at James Hennessey, Dealer in Bank-

rupt Stocks. d&w

GREEN TRUNK EXCURSIONS.—The King-

ston News of the 9th inst., says: "The

Grand Trunk Railway Company have de-

cided to discontinue the project of per-

mitting outsiders to get up excursions over

the line. They appear to be of opinion that

they should have all the profit to them-

selves, and proposing several excursions

during the summer, of which notice will

be given in the local papers."

FOR MANITOBA.—(It seems likely that

there will be a large emigration of farmers

from Hastings and adjoining counties to

the Province of Manitoba this season, as

the route for summer travel is open.

This does not look as if the great industry

of agriculture, which the Macdonald Gov-

ernment refused to protect in any way, was

in flourishing condition this season, as

"was in their own country, affect-

ing it. A considerable number of

agriculturalists are also preparing to leave

the Western States, the departure of

which will be a direct loss to the Dom-

inion.

THE FERRY.—Yesterday the ice had so

far yielded to the sun that the ferry

across the harbor is only a narrow

strip of ice, and the ferry is only a narrow

strip of ice, and the ferry is only a narrow

strip of ice, and the ferry is only a narrow

and brilliant colors, which contribute to the high and cheerful aspect of the interior. The building, Messrs. Northcott and Alford, have evidently fulfilled their rather difficult task in a faithful and workmanlike manner. The congregation of St. John's desired great credit for the enterprise and spirit which they have shown in carrying out this undertaking. It is given that the Rev. H. Wilson, D.D. (W.V.) preached last Sunday, saying: "We are informed that all the pupils of the Institution for the Deaf and Dumb who have been unwell are now recovering."

THE RAY.—The ice continues to clear out with remarkable rapidity, only a little ice being observable to-day in the vicinity of the Narrows.

POLICE COURT.—There was no business in court this morning. Only one case in five days. The next thing in order will be white gloves for the reporters.

GOT A DUCKING.—Mr. Thomas Baint, whilst engaged this morning in painting the Prince Edward's canal on the outside of the public house at the foot of the water by the breaking of a board in the staging on which he stood. He was fished out after having taken a bath rather too cool to be comfortable.

THE FERRY.—After great exertions on the part of Capt. Jellett and the workmen employed, the ferry steamer *Prince Edward* was got in readiness for business to-day, and was to have made her first trip across the bay this afternoon. This is nine days earlier than the ferry ever commenced running before, the earliest date previously having been March 21st, 1877.

FIRST OF THE SEASON.—Eleven cases of cholera at the latest date, and five cases of the latest English cholera, both taken at Hyman's, opposite Connaught Canal Bank.

Best family flour at \$2.50 per 100 lb. H. Corby & Son's flour and feed store. They also sell all kinds of feed at proportionately low rates.

BANKRUPT STOCK TAKING. James Hennessy wishes to clear out all the odds and ends of Dress Goods, Shawls, Cloaks, Flannels, Wiggins, Prints, Cottons, Steam Looms, Hosiery, Gloves, Scarfs, Towelling, Tickings, Table Linens, &c. &c. &c. of James Robertson's Bankrupt Stock, at whatever price they will bring, before taking stock. To the address, Robertson & Ensey's old stand—Jas. Hennessy, Dealer in Bankrupt Stocks. d.w.i.v.

LEAVING TOWN.—A considerable exodus of mechanics and laboring men from this city to the United States and to Manitoba is taking place at present. This is the legitimate result of the policy of the Macdonald Government, and is a disaster to this country by placing its trade in the hands of the United States manufacturers and closing up many of the workshops at home.

HORSE DROWNING. The Ottawa Citizen says: "On Saturday last, Mr. James Kearns, of Glen Taylor, lost his horse, named 'Moss', driving a valuable team, over the ice, at Belleville. When about a mile from the village, on the lake, the animal broke through the ice, and although a couple of men came to his aid, he was drowned before they could get her out of the water. The animal was valued at \$300. Mr. Kearns had a narrow escape from drowning himself."

FALL-SOWS CROPS.—Favorable accounts of the fall-crops of wheat, of which a large quantity has been raised in this and adjoining counties, are received from most localities. Wheat has been injured in local spots, and clover has suffered similarly, but the damage done is not very seriously affected the yield, provided the weather be not too dry.

RYBIE'S TENDERS. Ryb's presents a very satisfactory appearance, being well grown and thrifty looking.

MAJOR MODEL SCHOOL.—A telegram from Major says: "The first session of the Model School was closed on Saturday. All the students, nine in number, received certificates. An address was given by the graduates to Inspector Mackintosh and Mr. Curtis, Principal, thanking them for the earnest exertions made by them for the school. The session has been very successful, and has convinced the most sceptical of the wisdom of the Model School system."

THE "INTERNATIONAL REVIEW."—The March-April number of the *International Review* (A. S. Barnes & Co., publishers, New York and Chicago) opens with the Confederate Reminiscences of Alexander H. Stephens, who here furnishes to the public many facts of great interest. He combines the recently published statements of Gen. Richard Taylor. In his second article Hon. David A. Wells presents a valuable review of the elements of National Wealth, including the sources of the nation's wealth and the principal causes of its poverty. Will T. Richmond, F. R. S., F. A. S. I., long a resident of Mexico, treats the Mexican Question under the title of the "Mexico of the Mexican Revolution." A fascinating account of the public and private lives of some of the learned and famous of Bologna is given by Madame Villari of Italy, wife of Prof. Villari, who was Minister of Education in the Kingdom of Sardinia. This is Madame Villari's first appearance in an American periodical. The all-absorbing topic of the Method of Election, past and future, is ably discussed from the judicial and political stand-points by Judge Thomas M. Cooley of Michigan and Hon. Abram S. Hewitt of New York. Other articles are by Gen. Dr. Samuel Ogden on Modern Love; Rev. Dr. Joseph (of New York) on the New York and its History; Prof. A. P. Peabody, D. D., L. D., of Harvard College, on the Relation of Morality to Religion, including the modern system; Baron E. von Helldorf on the "Will-known" German Jew, on Imperial Federalism in Germany. Jewry in Art is appropriately described by E. C. Taylor of New York. The department of recent important English, German, French

and American books by amateur foreign and American reviewers. The Review may be had of all newsdealers by single copy or by the year.

THE FLY ON THE WHEEL.—The *Lucie* in its last issue caricatures Mr. Cartwright, who is depicted as exhibiting the medical skill of former years, with the anticipated defeat of 1878, at the same time pointing to a very large and heavy iron wheel, and saying: "That is my fly on the wheel, that is my policy."

THE MONTREAL STAR.—This journal now claims to have the largest circulation of any newspaper published in the Dominion; its daily issue being upwards of 16,000 copies and its weekly circulation 31,000, and it challenges the *Globe* to an investigation. The paper claims to be the largest of the kind in the Dominion. The *Star* is certainly one of the best evening newspapers in Canada, and its prospectus is well deserved, though it is difficult to say how much it should be placed on a paying basis.

First were the various Fire Companies, followed by the band, then the St. George's Society, next the Masonic fraternity, the members of the board and the members of the City Council and City officials as mourners, and last of all were a large number of citizens on foot and in carriages. The procession was very solemn and imposing, and was witnessed by a great number of spectators, who lined the sidewalks on both sides of the street.

Mrs. MAUGER'S READER. The readings given in the Opera House last night by the J. J. Mauger, under the auspices of the Masonic fraternity, were highly successful in an artistic sense, though the attendance was by no means so large as on the previous evening. MARCH WEATHER. March, proverbially the most fickle month of the year, gave a fine exhibition of its characteristics last night and this morning. Late in the night rain, which had threatened during the whole of yesterday, began to fall, and continued to fairly pour down until about 5 o'clock this morning. At the hour named snow began to fall, and continued during the greater part of the forenoon. The streets and roads, which were fast drying up, have again become very muddy.

But upon having it pointed out to him that available property could now be procured which might in a short time be built upon, and thereby increase the price paid for it, he replied that that was a question worthy of consideration and the Government would think of it, as also the

FROM MONTREAL.

Another Shooting Affair.

MONTREAL, March 12.—About 12 o'clock last night a young man named David Carver, living on Jacques Cartier Street, was attacked near his home by two men, who fired at him with a revolver, one of which took effect on the left eye, the bullet passing through the eye and lodging in the skull, the other being in the leg, about the knee. Neither the assailants nor the victim were known. The doctors are reticent in giving an opinion as to the unfortunate man's state, but it is believed that Carver could hardly live. Carver alleged the attack was made on him by a Catholic. The police, however, are not prepared to believe that, and are being connected with the shooting in any way. They are both Protestants.

County Council.

THIRD DAY—MORNING SESSION. Tuesday, March 14. The Council met at 10 o'clock.

The minutes of the last meeting were read and approved.

The following were presented and read: From Patrick Nash and others asking that the road from Marysville to Lonsdale, by way of McCarron's hill, have a grant expended on this season.

A communication from the Master in Chancery was read, stating that he had charged another caretaker for his office, and submitting an account for clearing his office.

Mr. Flint said the caretaker employed by the County was not allowed to go in the Master's office for some reason.

Mr. White said the sooner we let Judge, Junior Clerk, or Masters in Chancery, know their places the better.

Mr. Peck said the room occupied by the Master was County property, and he had no right to discharge the caretaker.

Mr. Flint moved that the communication and account of Mr. S. S. Laiter, for expenses of a caretaker, be not entertained.

The Public Accounts Committee reported that in their opinion the Petition paid of bridges was not an improvement to those built by the County Surveyor.

Mr. Peck introduced a By-law to amend a By-law to settle the claims of \$5,000 of the amount promised years ago to be paid to the County.

The Lumber Trade.
WHAT A CHICAGO GENTLEMAN THINKS OF THE
PROSPECT.
A gentleman residing in Chicago, and writing
to a prominent citizen largely interested
in the success of the lumber trade of this dis-
trict, gives an encouraging view of the pros-
pect for the coming season. He says:—
"The universal opinion is that there will be
an active and unusually heavy demand,
either for higher prices, or on the other
hand a very short supply. One of the heav-
iest lumbermen, a capable and conservative
man, estimates the deficiency of the crop in
the Northwest at a thousand million of feet,
amounting almost equal to the consumption of
Chicago, the largest saw lumber market of
the world. The appearance in the woods of
Michigan, Wisconsin and the neighborhood,
of a very large number of trees, instead of
the usual crop, which is a very large in-
crease of 1,000 to 1,200 million feet of
lumber, is a very large increase. The in-
crease of this is in the woods, and from a
Canadian point of view particularly cheering.
I believe, therefore, that there will be no real
plus from Michigan to compete with the
Canada lumber in the Eastern markets or for
foreign shipments, and an excellent opportu-
nity will be afforded of securing, or greatly
reducing the extent, which will have ac-
cumulated during the last four years on the
Ottawa and elsewhere."

Toronto, March 18.—The city in comparative quiet, but towards night there was a serious disturbance on Jarvis and Adelaide Streets.

The principal point of attraction was the St. Lawrence Hotel, where O'Donovan Rossa was believed to be located. There was a manifest decrease in the
quantities of spirits taken for consumption,
the decrease being 489,788 gallons, or
14 1/2 per cent. less than the quantity taken
in 1876-7. The quantity taken in 1876-7
is less than the average of the four pre-
ceding years by 817,980 gallons, equal to nearly
21 1/2 per cent. This falling off is attributable
to (1) the uncertainty of dealers and pub-
licans as to the direction which legislation
might take in relation to Prohibition, and
a consequent determination to hold as small
quantities in stock as was consistent with
immediate wants; (2) illicit distillation; (3)
an actual decrease in consumption conse-
quent on the decreased ability of many
classes of people to purchase. Previous to
the 1st July, 1875, the total number of
illicit stills seized was 189. During the fiscal
year, ended the 30th June, 1876, the number
seized was 20. During the past fiscal
year 47 were seized, and from the 1st July
to the 31st December last there were 19
seized. These seizures have been made
with increasing frequency as the year has
advanced, and there is reason to fear that
a great many are in operation of which the
exact locality has not been definitely ascer-
tained.

The quantity of spirits held in bond at
the commencement of the past fiscal year
was 236,934 proof gallons less than the
quantity held at the close, the quantities
being respectively 1,276,786, and 1,513,
720 gallons. The total quantity of spirits
held at the close of the past fiscal year
is greater by 160,015 gallons than the av-
erage quantity held at the close of each of
the preceding four years. The quantity of
malt manufactured during the past fiscal
year was less than the average of the four
preceding years by 2,758,041 pounds, and
less than the quantity manufactured in
1876-7 by 12,641,087 pounds, the whole
quantity held for consumption was 3,880,
900 pounds below the average and 1,414,896
pounds less than in 1876-7. These figures show
that there has been a steady decline in the quantity of malt used
during the past five years. The quantity of
malt exported last year was 3,770,730
pounds in excess of the average exports of
1875-76. The quantity remaining in bond
on the 30th June 1877 was less than the
quantity in bond at the commencement of
the year by 1,223,977 pounds. Of the quantity
of malt used during the fiscal year 27,471,707
pounds were used in the manufacture of
malt, and 3,013,920 pounds in distilling.

The production of manufactured tobacco
during the past fiscal year has been 1,233,
164 pounds in excess of the quantity man-
ufactured in 1876-7, and greater than the
average annual production of the four pre-
ceding years by 993,612 pounds, but the
quantity taken for consumption during the
year ending the 30th June, 1877, was less
than the quantity taken during the pre-
ceding years by 633,322 pounds, though it is
greater than the average taken during the
four preceding years by 301,184 pounds. The
stocks of manufactured tobacco in ware-
houses at the close of the past fiscal year ex-
ceeded the stocks in warehouses at the com-
mencement of the year by 637,054 pounds, and they exceed
the average of the preceding four years by
534,491 pounds. The total consumption
of cigars in 1877 shows a decrease of about
17 1/2 per cent. as compared with 1876, of
which 12 1/2 per cent. occurs on imported
cigars and 5 per cent. on cigars of Canadian
manufacture.

The total number of grain laden vessels
lightened at Port Colborne in 1877 was 43,
as against 54 in the previous year. The
number unladen, without entering the canal,
was 49, as against 40 in 1876.

William Spirling, an old and well known
upholsterer, fell from the attic of the Ottawa
Hotel, Montreal, on the 19th inst., down five
stories, leaving the lifeless body. He died be-
fore reaching the hospital. He broke through
two plate glass doors.

Political Notes.

WHAT CANADA WANTS.
The *Osage Times* says: "Sir John A. Macdonald is a sensible man. In the Dominion House of Commons he moved the following resolution: 'That this house is of the opinion that the welfare of Canada requires the establishment of a tariff policy which, by a readjustment of the tariff, will benefit and foster the agricultural, mining and manufacturing interests of the Dominion.' That is all Canada wants."

THE WRIT FOR A NEW ELECTION FOR NEW WESTMINSTER, British Columbia, vacant by the resignation of Mr. Cunningham, Government contractor, has resulted in a declaration after a long delay. Mr. Cunningham resigned on November 21st; the writ was not issued until January 24th, and it was not received until February 14th, or thereabouts. This is quick dispatch with a vengeance! Had not the election of a Conservative been certain, the election would have been long ere this. But as it is, the election is not to take place until March 23rd, and the constituency has, by trickery, in the interest of a late Government, been virtually disfranchised for the session, as in former articles on the subject we predicted it would. The *New Westminster Herald* in-
sistently says very appropriately: "This year's legislation will permanently and virtually affect our interests in railway matters, but we have no voice in the House. Our taking interests demand the attention of the Government, but we have no voice at Ottawa. Increasing trade and business, and the establishment of manufacturing and other facilities, but we have no representative at head quarters to urge our claims. By whose fault? There are two candidates in the constituency, by Thomas R. McLean (a Conservative) and James Goldwin, who announces himself as a supporter of the Government, in case they adopt the Fraser Valley route and Burnaby (a Liberal) for the Pacific Rail-
way; but on the whole question he advocates the placing of our producers on an equal footing with those of the United States. Mr. Cunningham has not announced himself as a candidate.

penses of the different committees for the
last four years. In 1874 the amount paid to
witnesses was \$5,198 and for reporting \$712;

reporting \$712; in 1876 the witnesses \$212
and the reporting \$712; and in 1877 the
witnesses \$4,201 and the reporting \$2,224.

LEGISLATIVE REFRESHMENTS.—Louisiana
has a State Committee on Frauds, and
recently it reported that during one session
of the Chamberlain Legislature "refresh-
ments" consumed by the law makers cost
the commonwealth \$250,000. The members
were practical in their taste, if the
report represents the facts, and clothing,
jewelry, ladies' wearing apparel, furni-
ture and goods of all kinds are among the
items named—also refreshments more sub-
stantial in character and permanent in
value than the usually called refresh-
ments. The contrast must have been re-
freshing to the enlightened and independ-
ent electors of the state.

many efficient men, he contended, had been
driven from the public service.
Mr. Carrier said that if the bill passed as it
stood, there was great danger of people
forming themselves into incorporated com-

1875. The first clause gives the offi-

ships on the coast.
Considerable discussion ensued on the
bill and Mr. Macdonald expressed his wil-
lingness to amend the clause making the
use of stamped paper compulsory. The
compulsory clause was objected to by mem-
bers on both sides of the House.

Several members have expressed their
willingness in favor of a repeal of all the Acts
relating to stamps.

Sir John Macdonald said the tax did not
bear heavily on the agriculturists or the
workingsmen, but upon the merchants, who
ought to be willing to bear that amount of
tax.

The House adjourned at 12.30 a.m.

BELLEVILLE, FRIDAY, MARCH 22.
THE RINE CASE.

The serious charge preferred against Mr. Rine, the well-known advocate of temperance, and the result of the preliminary proceedings in relation to that charge, have caused not a little excitement in the public mind during several days past, and the result can hardly fail to be an injury to the temperance cause. Mr. Rine has not as yet been convicted of the offence charged against him; but the publication of his letter, in which he confessed his indiscretion, together with the offer by his Secretary of a large sum of money to the father of the girl who brings the charge against him, have had a powerful effect upon the public mind. Further than that, the conduct of the accused, in continuing to deliver public addresses as before, and in one case his unseemly wrangling with the chairman of a meeting at which he was speaking, are circumstances which leave anything but a favorable impression concerning him. Had Mr. Rine refrained from appearing in public until after the trial was over, it would have been much more seemly and appropriate under the circumstances, as it is, he has in a measure put public opinion at defiance, and placed in the hands of the opponents of the cause of which he has been, it must be admitted an able advocate, a weapon which they will be slow to use. Hence, through the fall from grace of an individual, a cause which has the support of many eminent and philanthropic persons, will suffer. In such cases people do not stop to philosophize, they consider that it is the individual who is at fault, and not the cause which he advocates. They do not see that there is a distinct separation between the two, but, without fair consideration,—"a prejudice which has no foundation in reason." Mr. Rine and the movement of which he was the apostle, receive an equal share of condemnation.

This is far from being fair or just, but the injustice arises from the fact that Mr. Rine in Canada, as Mr. Murphy in the United States, has been made too much of. The adherents of the temperance cause have made the individuality of their eloquent and well-paid advocate too prominent. Instead of calling the movement advocated by Mr. Rine, the "Gospel Temperance movement," or any other name that they deemed most fitting to express their object, it has been the "Rine movement," their organizations have been "Rine Total Abstinence Clubs," &c., and in other ways they have allowed the individuality of their lecturer to overshadow the importance of the labor in which he was engaged. We regret the mistake that made because of the effect it has had on the minds of the people, and we are destined to have, and these remarks are dictated solely by that regret. All must regret that Mr. Rine has been made as it is apparent he did, taking his own letter as his guide in the matter; and we trust that, however, if any one, who has been carrying on the work which he began, the individual will not be allowed to place his own personality above the work in which he is engaged, in order that separation may be made at any time without injury to the cause, which ought at all times to be judged on its own merits solely.

The Montreal Star has an excellent article on the subject, with the following quotation from which we draw our comments on the matter:—"The world is divided into two camps, one in which temperance, or Rineism, shall go hand in hand with all the virtues, and all departure from the paths of rectitude and virtue by the leaders of the cause are sure to be condemned with severity. Mr. Rine's transgression cannot be measured by the standard of an ordinary sinner. It can be correctly estimated only by reference to the prominent place he fills in the eye of the general public. Mr. Rine was favored by nature with an eloquence which no more multitudes, who were marked out for a leader of men, and his experience and opportunities admirably fitted him to act as a guide and mentor to those of his fellow creatures who were rapidly descending to the common goal of the drunkard. He was doing a work beneficial to our common humanity, and hundreds of Canadians, men and women who were fast hurrying to perdition, will have cause for gratitude that they were ever brought within the influence of the Rine Movement. The fall of their idol and leader will be a crushing blow to those who require a helping hand through the mazes and temptations of life. For himself, the consequences of his transgression will be deplorable. He has violated the confidence of his friends, transgressed against the sacredness of a private home, and society will never see him in his place. He will not be able to shake off the stain which rests on his reputation, and must perform good by the magnificent moral work which was conducting. There can be no excuse for the pitiful moral weakness which he has betrayed, and, although his friends may be disposed to throw the mantle of charity over him, there can be no such thing as condoning his offence."

SLAUGHTER OF BUTTLE.—Western newspapers have now taken up the cause of the Buffalo, and from the manner in which hundreds of thousands of these animals are slaughtered annually for their hides, worth about 80 cents apiece, there seems reason to fear that the native animal will soon be as scarce as the native American. The native animal is scarce enough to be considered a curiosity in menageries exhibited on parties, and which countless millions at one time roamed and roamed. The native American will soon be as great a rarity as they follow the example of Sitting Bull and go North.

The Council met pursuant to adjournment.

A number of accounts presented.

SAVINGS OR COMPENSATION.
The Finance Committee, that sundry accounts paid, and that a sum \$150 be granted to the 15th Battalion Band, provided that the band play one evening per week on the Court House hill during June, July, August and September.

Of the Fire Committee, that P. O'Brien's offer for the use of his shop as a shed for Chemical Engine No. 4, at a rental of \$100 per year, repairs and fittings to be done by O'Brien; that W. H. Campbell be appointed Chief Engineer at salary of \$300 per year; that the appointment of Assistant Engineer be deferred for the present, and that the Chairman have discretionary power to have work done, and procure supplies in cases of emergency.

Of the Market Committee, that the building now occupied by the hay scales be enlarged for a police station, and that the Chairman be authorized to procure plans and specifications and advertise for tenders; that the present police office be fitted up for the office of the City Clerk, a brick safe being built; that the market scales be removed to the corner of the market; and that the cost of the work on the police office will be probably \$1,000.

The Mayor reported on the interview had with the Minister of Public Works as to the erection of a public building, and for a grant for harbor dredging, the result of which has already been published. He stated his hope that something would be got from the Government, but did not anticipate anything.

Ald. Brennan stated, in answer to Ald. Robertson, that a plan of a public building is being prepared, and will be forwarded in the early part of next week.

ALD. JELLET said the grant was not to be paid, but to be loaned. No. 1 Company of the 4th had had the ball over the bridge market free, and supplied with gas for a number of years, and it was only fair that the 10th should have the grant; the more especially as a grant was to be furnished on an even footing each week for four months.

The report was then adopted.
Ald. Brennan moved, seconded by Ald. J. Diamond, that the sum of \$40 be placed to the credit of Mr. C. P. Holton, for placing and repairing the harbor boom.—Carried.

The Finance Committee reported on the accounts of the last meeting, and the accounts of the last meeting were read and approved.

On the clause regarding Assistant Engineer.
Ald. Sherwood moved the appointment of Henry Corby, Jr. He said the matter had been laid over in Committee at the request of Mr. Patterson, in connection with the opinion of the Fire Committee. He had taken the opinion of Mr. Campbell, who considered the appointment of an Assistant very desirable and necessary.

ALD. ST. CHARLES did not think it necessary to appoint an Assistant Engineer at present. Even in the delicate state of health of our late Chief he had gone on for some eight or nine months without an Assistant, and he saw no cause for hurry now. He held that it would not be courteous to the Committee, which would deal with the subject, to pass the appointment of an Assistant Engineer to a committee which was not acceptable to the Fire Brigade and to the Council.

The amendment was then put and lost on a show of hands, and the clause adopted as it stood.
The remainder of the report was then adopted.

The report of the Market Committee was then taken up.
Ald. Holden thought the plan and specifications for the police office should be submitted to the Council. He would like to know if any plans had been prepared.

Ald. Langham said it was his intention to submit the plans to the Council.
Ald. Holden did not consider it advisable that tenders should be advertised for until a plan was approved. They should also have a careful estimate, which could only be made after plans and specifications had been drawn up.

Ald. Proctor said it was the intention of the Committee to ask for authority to procure plans and submit them to the Council.
The clause was then adopted, and the plan submitted to the Council, and passed.

On the next clause,
Ald. Holden thought it worthy of consideration whether, as they were now crowded on the market square and in the city building, it might not be advisable to erect a building in some other locality suitable for fine hall, such as needed, and police office. They were now paying \$100 per year for rent for fire hall, which amount represents a large capital.

Ald. Proctor said this subject had been deliberated upon by the Committee.
The Finance Committee proposed the cheaper of the two, and in addition the matter was of pressing urgency.

Ald. Langham consented with Ald. Proctor's plan, and said he had no objection to the market square for \$100 per year, as one of the clerks could thereby be dispensed with.
Ald. St. Charles was wrong in the subject, as the late James Quinn had been appointed an Assistant Engineer, some three or four years ago.

Ald. Sherwood withdrew his motion, on Ald. St. Charles proposing to bring in, at the earliest day practicable, a By-law for the appointment of Chief and Assistant Engineers.
The Council then adjourned.

DREAMING AT FOURSCORE.

She sits in the gathering twilight

And her heart is all at sea

With the snow of life's long winter

In the number of her hair

She dreams of the little children

Laughter.

We would rather be poor and merry, than

Inferior wealth, with a dis-

contented spirit. A merry heart is a

spirit from which laughter will, as nat-

urally, as the sun from the clouds, and

worth all the money, loss, stocks, and

more, of the life. The man who laughs is

a man with a dignified and noble

of nature; his face does more good in a

week than a pound of powder or a gallon

of bitter draughts. If things go right, he

laughs because it is a sign of things

being right. If things go wrong, he

laughs because it is a sign of things

Prospectus of the

COUNTY OF HASTINGS DIRECTORY

FOR 1878-9.

IN 1869, the third Directory of the County

of Hastings was published. A great many changes have taken

place since that time, and there being a very

large number of new residents, it was deemed

advisable to publish a new Directory, for the

year 1878-9. The general plan of the work will be similar

to the last one, but with many and valuable

improvements will be introduced, which will

render the Directory of great value to

all.

It will contain a complete list of the house-

holders, alphabetically arranged, of each

Business Directory.

THE EASTERN WAR.

MIDNIGHT DESPATCHES.

London, March 23.—A St. Petersburg cor-

respondent writes from a dispatch agency that

no formal representation will be made for the

present about the progress of the

Russian troops in the Sea of Marmora, but the

British troops will not embark now, as was

previously stated. Identical and moderate policies

are followed by the British and the Russian

forces. Russia to occupy Constantinople and

the Balkan front. The Russian troops are

expected to advance to the hope of peace in

the speedy assembling of the Congress. That

hope, however, throughout Russia is fast fading.

The belated conference is intense, even

in St. Petersburg.

A Constantinople despatch says—Rauf Pasha,

Oman Pasha, and Gen. Ignatieff arrived

yesterday evening. They will make a formal

and ceremonious entry into the city to-

morrow and have an interview with the

Sultan. It is not yet known in what cap-

acity Ignatieff is continuing his mission.

A Constantinople despatch says—Count

Zichy, Austrian Ambassador, has postponed

his intended departure on furlough, because

of the critical aspect of affairs. The Car-

ol has absolutely declined to grant the con-

cessions asked for by Rauf Pasha, but has made

his assent dependent upon a condition which

is believed to be a Russian ultimatum. It is

asserted that Rauf and Oman Pasha favor

such alliance. There is, however, a strong

pro-English party which opposes it.

A Constantinople despatch says—The

Sanitary Commission arrived at Ezerum

from Tiflis. They found 20,000 corpses bur-

ied two feet deep in the mud, and not decom-

posed. The Commission are deliberating

whether to cremate the corpses or use quick-

lime.

The Times says—Lord Derby continues to

insist that the whole of the treaty shall be

submitted to the plenipotentiaries, but to

guard against laying too much stress on the

formal point he has insisted on the com-

munication of the document to the several

Powers is equivalent to the submission of it

to the Congress. Russia is understood to have

declined to do this. Thus she declined the

only condition on which our Government will

send a plenipotentiary to Berlin.

The Journal de St. Petersburg says—Eng-

land must yield her wishes to Persia and

Russia. She has not the strength to resist

them. She has not the strength to resist

them. She has not the strength to resist

THE EASTERN WAR.

MIDNIGHT DESPATCHES.

London, March 23.—A St. Petersburg cor-

respondent writes from a dispatch agency that

no formal representation will be made for the

present about the progress of the

Russian troops in the Sea of Marmora, but the

British troops will not embark now, as was

previously stated. Identical and moderate policies

are followed by the British and the Russian

forces. Russia to occupy Constantinople and

the Balkan front. The Russian troops are

expected to advance to the hope of peace in

the speedy assembling of the Congress. That

hope, however, throughout Russia is fast fading.

The belated conference is intense, even

in St. Petersburg.

A Constantinople despatch says—Rauf Pasha,

Oman Pasha, and Gen. Ignatieff arrived

yesterday evening. They will make a formal

and ceremonious entry into the city to-

morrow and have an interview with the

Sultan. It is not yet known in what cap-

acity Ignatieff is continuing his mission.

A Constantinople despatch says—Count

Zichy, Austrian Ambassador, has postponed

his intended departure on furlough, because

of the critical aspect of affairs. The Car-

ol has absolutely declined to grant the con-

cessions asked for by Rauf Pasha, but has made

his assent dependent upon a condition which

is believed to be a Russian ultimatum. It is

asserted that Rauf and Oman Pasha favor

such alliance. There is, however, a strong

pro-English party which opposes it.

A Constantinople despatch says—The

Sanitary Commission arrived at Ezerum

from Tiflis. They found 20,000 corpses bur-

ied two feet deep in the mud, and not decom-

posed. The Commission are deliberating

whether to cremate the corpses or use quick-

lime.

The Times says—Lord Derby continues to

insist that the whole of the treaty shall be

submitted to the plenipotentiaries, but to

guard against laying too much stress on the

formal point he has insisted on the com-

munication of the document to the several

Powers is equivalent to the submission of it

to the Congress. Russia is understood to have

declined to do this. Thus she declined the

Experiments with Milk.

At one of the Associated Dairies in the Danish town of Slagelse, it was often noticed that the milk brought in from the cows was not as good as that obtained from cows near at hand. Some experiments were undertaken with a view to determining the influence of continued motion, such as that to which milk is subjected during a long journey, upon the amount of butter obtained from it. At the same time some observations were made upon the influence of the temperature of the milk upon the amount of butter obtained from it. The results are given in the following table, which we take from a London contemporary, the amount of butter obtained from milk collected at one taken at one hundred in each case. The second column of figures represents the amount as compared with the standard, obtained from an equal quantity of the same milk that had been kept for twenty-four hours before being collected; while in the third column we have the proportionate amount from milk that had previously undergone a two hours' journey in a spring cart. The last column shows the results of the experiments conducted under precisely similar conditions on the six consecutive days, August 20th to the 25th inclusive.

No. of cows	collected at one hundred	collected at one hundred	collected at one hundred
1	100	80.0	77.00
2	100	80.0	77.00
3	100	80.0	77.00
4	100	80.0	77.00
5	100	80.0	77.00
6	100	80.0	77.00
Mean	100	80.0	77.00

Thus it appears that it is by no means a matter of indifference whether the milk be collected at one or after the lapse of some time; the delay of only two hours entails, in these experiments, an average loss of 8.8 per cent. of butter. Still more important is the avoidance of long transport, the loss of butter attending only a two hours' journey ranging from 3.6 to no less than 28.2 per cent., while showing an average of 11.5 for the six observations; the details of which are mentioned in the table.

CREAMERIES.

This new branch of rural industry which has recently sprung up in the U. S. is worthy the attention of the farmers in Canada. A creamery is nothing more than a systematic way of making butter, the same as making cheese in a factory instead of making it at home. This operation offers the same advantages with regard to the division of labor as cheese-factories do. Not one farmer in ten has the facilities in the shape of cellars at the proper temperature, either in winter or summer, besides a proper system of churning and working the butter. Even with the facilities of cellars and every appliance for making butter, it does not pay to make any quantity, if it can be no more than a few hundred pounds of butter can be made in a factory or creamery. The advantages that are offered by creameries is, first, that the quality of butter can be made in a factory or creamery. Thoughts for Sugar-Makers.

As we are to have an excellent sap season this coming spring, both in relation to quantity and quality, sugar-makers will do well to consider the following points, viz:

1. Sap, at its maximum flow, is the sweetest.
2. Sap is sweeter on the north side, than on the south side, but high up and shallow.
3. The largest quantity and the nicest quality cannot be secured by the same means.
4. The shallower we bore, the whiter the sugar, the deeper we bore, the whiter the sugar.
5. The shallower we bore, the less the sugar.
6. The deeper we bore the more the sugar.
7. Quantity of sugar is always to the expense of quality.
8. If you wish to get through with' engaging the sap, then tap early, on the north side, high up and shallow.
9. If, on the contrary, you wish to sugar late, then tap low down on the north side, and deep.
10. From the heart-wood sap will not run in spring, but later it will; therefore, tap shallow early, and deeper late in the season.
11. Sugar made from the sap-wood (which is the heart-wood) is the best.

THE EASTERN WAR.
MIDNIGHT DESPATCHES.

LONDON, March 26.—A Vienna despatch

says—Ignatieff's mission is to complete

negotiations for the delivery of the

which has already found favor at headquarters.

Austria demands Russia, Herzegovina,

Northern Albania, and a portion of Macedonia,

in the Balkans. Russia claims the

annexation of a portion of Macedonia, but this

is difficult by no means insurmountable.

Ignatieff will go to Berlin on leaving here.

Russia, by the advice of Ignatieff, is

considering Austria and disregarding England.

It is believed that Russia is preparing for war with

England. Two hundred thousand men of the

Russian Landwehr were called out on Mon-

day.

The Post says—Another vain attempt has

been made to induce Austria to acknowledge

some responsibility towards Russia. Her re-

ply is invariably the same, viz., "You have

full liberty of appreciation and action."

The Post says—"Should the Congress fail, some

means may yet be sought for establishing a

real or pretended agreement. It is not prob-

able it will be found, the London Russia view

the storm which is brewing will break out."

A Berlin correspondent states that an ap-

parently inspired article in the Berlin Post

justifies the demand, and declares Russia

should be wise enough to be moderate.

A Constantinople despatch says—The

Grand Duke Nicholas, accompanied by twelve

Russian generals, proceeded to-day in the

Imperial yacht, *Levenko*, to Dolnagradskaya

Palace, where he was received by the Sultan,

surrounded by his Ministers and Osman

Pasha and other generals. The Grand Duke

proceeded to the Russian Embassy, in

front of which the Russian eagles were

displayed. The Grand Duke will sleep on board

the *Levenko* to-night, and take luncheon with

the Sultan to-morrow. It is said the Grand

Duke, referring to the Porte's apprehension

of a possible Anglo-Russian conflict, ex-

pressed the hope that the Congress would effect

an arrangement.

A special report states that the Sultan

received the Grand Duke with the utmost cor-

tesy and cordiality. Diplomatic relations

between Russia and Austria have been re-

newed, and General Nishoff has been ap-

pointed Russian Charge d'Affaires at Con-

stantinople.

SENATE ADVICE.—The Cleveland Leader says:—"Money spent in advertising may be wasted or may bring golden fruitage, according to the degree of intelligence with which it is dispensed. Put it into a good, live, popular newspaper, which will carry your advertisement to the counting-rooms and fireplaces of the people who want to be met and money with which to meet them. This is the whole priceless secret of successful advertising."

BOARD OF R. C. TRUSTEES OF BELLEVILLE V. GRANTING.—In the Court of Chancery, Toronto, before V. C. Blair, on the 27th, Mr. Bellhouse, Q. C., and Mr. C. M. Bellhouse, plf's solicitors, moved for a decree compelling defendants to deliver to the plaintiffs the seal and property of the Board. Mr. Wallbridge, Q. C., and Mr. Wells for defendants, contra. The question in dispute was whether the plaintiffs or defendants were the properly elected trustees of the Board.

It is to be fitted up in good style, with ladies' cabin, hurricane deck, etc. It will be 100 feet in length, 18 feet beam, and 8 feet hold. The engine will be built by Geo. N. O'Leary, Esq., the well-known marine engine builder of this city. The cylinder is to be 16 inches with a 16 inch stroke. She will have a return tubular boiler, with a shell 6 feet in diameter and 3 inch thick. It is expected she will make 14 to 16 miles per hour, though the contract calls only for 12. New York, March 25.—The *Herald* discloses further correspondence intended to show that Dufosse was disinclined to serve as a commissioner—that he was urged to serve by Fish and Tilden, and that in this respect our Government took the initiative—and that Count Bent nominated Dufosse on information that had been agreed upon by both Governments.

Isaac Herman, diamond merchant, filed a bill for \$50,000; assets over that amount.

At the great Keltie sale of trading stock yesterday, 30 animals sold for \$25,000. "Kinky Kelly" brought \$10,700.

The Times reports a rumor that Tilton and his wife will soon return, and go abroad.

The *Frederic* says the Home, Waters and Ogdenburg Railroad Co. will default on coupons due April 1st on \$4,250,000 defaulted bonds.

THE EASTERN WAR.

MIDNIGHT DESPATCHES.

LONDON, March 25.—A Vienna special to Paris reports that Andrius informed Sir Henry Elliot that Austria would remain neutral in the event of an Anglo-Russian war.

A Vienna despatch says: "Istambul, which is personally unopposed, has been lately received."

The *Daily Telegraph* says:—"On Tuesday night Her Majesty's Government received the reply of Prince Gortschakoff. The Cabinet deliberated yesterday to consider it. As our Paris correspondent states, the reply is to the effect that Gortschakoff fully understands the wish of England to take up (renew) the negotiations, and the general principle of the provisional treaty, but that from a Russian point of view he must maintain the exercise of a veto upon the discussion of those terms which are considered at St. Petersburg as outside of European jurisdiction and concern."

The *Telegraph* adds:—"The natural consequence of Russia's answer is that the Congress will not meet. A Vienna correspondent seems hopeful, and intimates that Austria is endeavoring to arrange a compromise. Though, however, the war, however, conflict with the general tenor of the news. This correspondent also declares that Austria has not thought of a Congress without England, nor such an idea been suggested elsewhere."

MORNING DESPATCHES.

EUROPEAN.

LONDON, March 25.—An Athens despatch says there has been very heavy fighting in Greece. The Turks met with success. It is stated that a camp of 200,000 men is forming at Khokand, the destination of which is to operate against India.

New from the East received during the past few days has revived the war excitement, and there is a probability of an open rupture between England and Russia.

The *Herald* says:—"The London Convention is being largely commented upon. It is construed by many that Germany will give at least a moral support to England. The meeting of the Congress has failed, owing to Russia's positive refusal to accede to England's demand."

AFTERNOON DESPATCHES.

LONDON, March 25.—Lord Derby, Secretary of State for the Foreign Department, has announced his resignation in the House of Lords.

LONDON, March 25.—It is reported that from three quarters to a million and a half of silver was purchased here yesterday for shipment to New York.

The *Times* states that the representatives of the Admiralty were in Liverpool yesterday inspecting the steamers of several of the Atlantic companies with a view to their employment in transporting troops in an emergency.

An order was received at Portsmouth that all troop ships must have their hatchways enlarged to allow horses and ambulances and baggage wagons being loaded.

LONDON, March 25.—The *Times* St. Petersburg correspondent says, the following is the view held there: "The British Cabinet in demanding a formal assurance from Russia which no other power supports, must either aim to inflict formal humiliation on Russia or to get out of the necessity of attending the Congress. In the former case Russia cannot make any concession, in the latter the Congress will be held and Russia will endeavor to come to an arrangement with Germany and Austria. This English condemns herself to isolation, makes the triple alliance a political necessity, and puts Russia in a position that radical solution of the Eastern question, which she wishes to prevent."

PARIS, March 25.—At St. Petersburg despatch says, an excited party there opposes any concession to Austria which might involve the treaty of San Stefano, which is considered sufficiently humiliating for Russia.

VIENNA, March 25.—An impression prevails that negotiations must not be regarded as altogether broken off, since Russia just now lays strong stress on showing herself as conciliatory as possible to Austria, and on trying to remove the bad impression produced by the preliminary treaty. This Government more than any other, may be in a position to find a compromise satisfactory to both sides.

CONSTANTINOPLE, March 25.—The Russians have issued a proclamation inviting the Mussulmans to return to their homes in Bulgaria and warning the Bulgarians to preserve tranquility. Two transports with Russian troops have left for Odessa.

LONDON, March 25.—A Vienna despatch says a sudden change in the Government's attitude is reported. It is said that Count Andrius has only been feigning concurrence with the Court party, and is now preparing to oppose Russia openly with the entire Hungarian party at his back.

LONDON, March 27.—Four inches of snow has fallen in the Midland Counties, and snow is still falling. Considerable damage is likely to result in consequence of the forward state of vegetation after two months of very mild weather.

ROME, March 25.—At the Consistory at the Vatican to-day, the Pope delivered an allocution and nominated St. Eusebius as a cardinal. Right Rev. John Strain, D.D., Metropolitan, Archbishop of St. Andrew's at Edinburgh; Most Rev. Chas. Eves, Archbishop of Glasgow; Rev. Messrs. Bishop of Argyll; Rev. Messrs. Bishop of Galloway; and Rev. MacDonald, Bishop of Galloway, Father Chastel, recteur of the American College in Rome, and Father Bishop of Richmond. The Pope then made the profession of faith according to established usage, and took the oath to the Apostolic constitution. Finally, he conferred a hat on Cardinal McCloskey, who after the Consistory, had a private audience with the Pope, and a number of other cardinals.

ELIZABETHTOWN, Ky., March 25.—On Tuesday, in an affray between a gang of fifteen men headed by John Miller and Wake Evers, a member of a family feud, "Brother" brother had his throat cut from ear to ear. Jake was killed instantly, and a number of others wounded.

THE LATEST.—LONDON, March 25.—OFFICIAL.—The Government has issued an order to call out the reserve for immediate active service. In consequence of this action Lord Derby has resigned.

STILL LATE.—LONDON, March 25.—In the House of Lords Lord Beaconsfield explained that Lord Derby had resigned on account of calling out the reserves.

COMMERCIAL.

Auction Sale of Butcher.—After the Liverpool sale, Montreal has commenced the sale of butchery by auction, as the only means of working off old stock. The first sale of this season took place yesterday at the rooms of Mr. J. J. Arden, from 40 clipper-cure hams, the rest of the lot consisting of 80 clipper-cure hams, sold at 10 p. m. Thirty-two of the summer made hockleys were knocked down for \$1,000, and 20 tubs of common Western went under the hammer at 2 p. m.

Michigan lumbermen, who have contracts with Quebec and Montreal, have notified them that they will be unable to get the market more than about half the timber contracted for. The cause arises from the lack of snow to get timber to the cutting point.

BEACONFIELD'S STATEMENT.

The Government Policy.

THE SITUATION CRITICAL.

Lord Derby's Explanations.

From the *Intelligencer*, Extra, 11 a.m.

LONDON, March 29.—The House of Commons was crowded this afternoon. Many members of the Lower House were present. Lord Derby entered soon after five o'clock and took a seat below the gangway, instead of in the Treasury Bench. He rose almost immediately and announced his resignation as Secretary of Foreign Affairs, which he said, had been accepted by the Queen, and he only continued to hold office until the appointment of his successor. He regretted under the circumstances it would not be possible for him to follow the customary course of explaining in detail the differences which led him to resign. The Cabinet had arrived at certain conclusions of a grave and important character, in which he was not able to concur. To prevent needless alarm he would say he did not consider those means necessary to bring about war. He gave the Cabinet credit for sincerely desiring European peace, but he could not regard the measures now resolved upon as prudent, in the interests of peace or necessary for the safety of the country. When the conference of Parliament asked for the measures which he had spoken of he had declined to give any further explanation, but he did not dissent from the Cabinet view of the conditions upon which Europe might go into the Congress. He lamented the result to the meeting of Congress, but he felt that it did not rest with the Government of this country. Lord Beaconsfield said he would willingly refrain from making the measures which he had announced Lord Derby to resign until the period when those reasons might be legitimately considered by the House. So much mischief might result from unnecessary mystery that it was his duty to say that in consequence of the belief of the Government that the Congress would not be held, and that the hopes of recognizing the disturbed balance of power in the Mediterranean had ceased, it was the duty of the Ministers to consider what steps should be taken to prevent impending mischief. He said, therefore, advised Her Majesty to avail herself of her reserved force. A measure to that effect would be laid before Parliament. He deeply deplored that he would not have the support of Lord Derby when he resisted the measures on which the Cabinet had resolved to Parliament; but he felt that late political tides between Lord Derby and himself must soon terminate, but he had believed that in a very different and more natural manner, namely that he (Beaconsfield) would disappear from the scene while Lord Derby would remain to take a leading part in public affairs. He was sustained at the present moment by his confidence that the policy of the Government recommended by Her Majesty would tend to the maintenance of the empire, the freedom of Europe and the greatness and security of the country. (Cheers.)

The Opposition, in the absence of definite information, abstained from discussion for the present.

In the House of Commons Mr. Harby, the Secretary of State, said it was necessary to recall to the first-class of the treasury reserve, numbering 15,000, and militia reserve between 25,000 and 25,000.

The Queen's message to that effect would be presented probably on Monday; this would be followed by a proclamation calling out such of the reserve forces as might be required.

He pointed out that this is not the bodiment of militia, which would not take place until it was necessary to send regulars abroad.

It is said Lord Lytton is mentioned as the possible successor of Lord Derby. It is understood the Royal message will not enter into a detailed statement of the causes for falling out with the reserve.

A Constantinople special says, it is thought that Russia will request England to withdraw her fleet, as Russia and Turkey are now allies.

The Times says, Russia has adopted an utterly unyielding attitude, and unless she withdraws it may be necessary for us to be prepared to meet her on our rights.

The Admiralty has prepared the large mail steamer *Medusa*, building on the Tyne, for a troop ship.

The Post says it is probable that either Lord Lytton or the Duke of Salisbury will succeed Lord Derby.

A Vienna correspondent states that General Ignatieff so far seems to have confined himself to demonstrating that Russia's military position is such that she has no occasion to fear anything, and that she has carefully considered Austria's interests.

A Paris despatch says:—There was a panic in the Boulevard today, and it raged for 107 days 40 minutes.

A Portsmouth special says—Orders have been received at the dockyard for the immediate preparation of all the ships belonging to the Royal Navy, and the Imperial Government except the *Singapore* and *Assistance* for transportation, in the event of an emergency, of an expeditionary army corps. A rumor to this effect has been some time current, but no new positive and definite have been issued, with the concurrence of the Controller of the Navy.

CONSTANTINOPLE, March 29.—Oman Pasha landed with Mr. Layard, the British Ambassador, at the Embassy yesterday.

Bouvar, March 29.—Premier Bismarck started for Vienna to interview Ignatieff and to discuss the Russian position.

He hopes to start the discussion of Bismarck.
